PARTNER BONUS 1

The Family Interview Sheet

One printable form that collects everything Clueboo can put inside the puzzles. Send it to the family, type their answers into the Puzzles tab, and the book is theirs alone.

How to use it

1. Print pages 2 and 3, or send them as a PDF. A family fills them in over one cup of coffee.
2. Open your book in Clueboo, go to **Puzzles**, and open **Your family in the puzzles**.
3. Type each answer into the box with the same name. The sheet is in the same order as the boxes.
4. If Clueboo shows a red line under a box, that entry was left out, and the line says why. The limits are printed on the sheet so this rarely happens.
5. Under each box, check that its puzzle is in the book. If it is not, click the link that puts it there.

You never set an answer. The family gives names and words. Clueboo works out every number and solves the whole book again before the files can be downloaded.
