The Cover Recipe Book

24 covers, with the settings to make each one.

PARTNER BONUS 5

The Cover Recipe Book

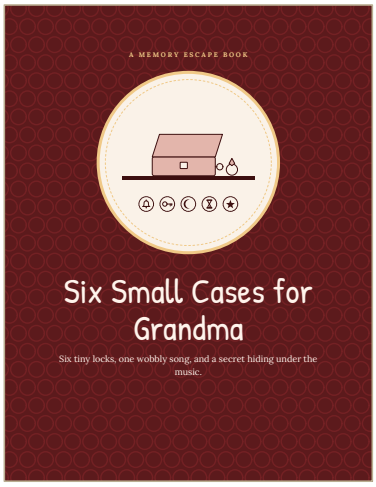

24 covers drawn by Clueboo itself, each with the exact settings to make it again.

How to use a recipe

1. Open your book in Clueboo and go to the Cover tab.
2. Under “The look”, click the Layout, the palette, and the Pattern named in the recipe.
3. Under “Lettering and parts”, pick the Title lettering (and the font of the small text, if one is named).
4. For a recipe marked “own colors”, type the hex values into “Your own colors”: Cover, Accent, Plate.
5. Your title, your keeper’s drawing and your words take the place of the ones shown here.

Good to know

- These 24 are a starting point: Clueboo makes 15,360 ready-made looks before your own colors.
- Text colors are chosen by Clueboo so every cover stays readable in print.
- Each cover comes as one PDF with back, spine and front, sized to your page count.
- The “made for” line is a suggestion, not a rule. Nothing here promises sales.
