120 Bonus Memory Questions

Ten kinds of life that the standard questions cannot know about, with twelve questions for each. Swap them in, and the book fits the person.

How to use them. Open the **Questions** tab, find a question you want to replace, and type one of these over it. The book keeps the same number of questions; you are choosing which ones are asked. Use the themes that are true of this storyteller. Buyers who own the World Builder upgrade can also turn a whole theme into a chapter of its own.
